HOW TO GET HELP IN CARD TRADING GROUPS

Sometimes it helps and sometimes it does not happen. Sometimes, some people will give you the required card, but sometimes you do not give a card, but they attack your village many times and you get bigger hassles by making a bigger raid.

I think you to join the trading group trust on the trust-worthy person who gives you cards and unfriends others who mislead you.

My strategy for getting any cards from other people is simple. You have to post that give a clear message why you need the card, attach your recent card set photo. Give an emotional message.

Try other's post where find those people who promise to help. Send them a personal message for help.

Sometimes we need big raids on a big bet. If you continue playing with the higher bet you will lose too many spins. Here is my perfect raid getting on 50 x higher bet tricks.

NEVER STORE YOUR INCOME

I usually don't store my income. As soon as I get the coins, I use them to upgrade my village. If you store coins and your village gets raided then you will lose all your coins at once. So, try to spend your coins on your village or anything else instead of storing them.
